**Purpose:**

The policy for transportation of children shall be in accordance with State regulations.

**Scope:**

According to Chapter 111c Section 10a “An injured or sick child who is to transported to a hospital or other medical treatment facility by an ambulance or other emergency vehicle shall be accompanied by a parent upon such parent’s request; unless the Emergency Medical Technician or other person in charge determines that the medical situation is life threatening or that the presence of a parent would create a potential risk to such child.”

“Such determination shall be noted in the written report of said emergency medical technician and a copy of such report shall be sent to such parent within 30 days of such determination.”
